Enterprise Education Track

Papers presented in this track will contribute to current debates on enterprise education by strengthening the argument for its inclusion across curricula, and generating new theories around aspects relating to its teaching, assessment and evaluation. Submissions that aim to exchange international best practice in enterprise education and/or deal with one or more of the following topics are welcome:

- Enterprise education in the professional and STEM disciplines
- New approaches to evaluating enterprise education
- Innovative teaching and assessment methods in enterprise education
- Enterprise education policy
- Training the enterprise educator
- Introducing enterprise to primary and secondary level education
- The influence of gender in enterprise education
