Education*

Goals and vision- What is TrEE about?

A **transformed** entrepreneurship education:

A radically re-conceived and contemporary pedagogy, founded on principles of **social** and **environmental justice**, and of **hopeful futures** through these.

Dodd, S., Lage-Arias, S., Berglund, K., Jack, S., Hytti, U. & Verduijn, K. (forthcoming). Transforming Enterprise Education. Sustainable Pedagogies of Hope and Social Justice. *Entrepreneurship & Regional Development*.

<https://doi.org/10.1080/08985626.2022.2071999>

Goals and vision- What is TrEE about?

An Entrepreneurship Education proposal that helps out to:

- Design **just transitions** to a more sustainable **Anthropocene**
- Prepare students for a leading role in **mitigating** pressing **crises**
- Build up a **community of EE** researchers and practitioners to share new heterodox **practices** and relevant **dialogues**

Goals and vision- What is TrEE about?

- Decouple EE from the creation of high-growth businesses
- Put EE creative potential to work to help enact more just futures, for 'people' as well as 'planet'.
- Innovating without exhausting planetary resources.
- Addressing social inequalities, starting from our own teaching practice, re-examining assumptions and taken-for-granted theoretical frameworks.
- In a nutshell: Enacting justice for all life; human and more-than-human from EE.

Products at the end of the project

- Elaborating new pedagogical approaches: **the TrEE Manifesto**
- Developing & validating relevant course designs, materials, and teaching interventions: a **teacher's training course** in Entrepreneurship Education and a **set of training materials** to be implemented in the classroom.
- Organizing training activities (educate-the-educator): **validation** of the course and training materials with a **selection** of Entrepreneurship **Educators** in Europe.

Plans after the TrEE project

- Keep working on creating the resilience that is needed to deal with the major crises of our times, through Entrepreneurship Education.
- Creating a permanent space to share, create and develop relevant and thoughtful academic relationships with other Entrepreneurship Educators.
